VEGAN ORGANIC NETWORK

People Health, Animal Health, Planet Health
Planet Friendly Farming and Growing

The Vegan Organic Network is dedicated to creating a Green, Clean, and Cruelty-Free World, with clean rivers and oceans, abundant wildlife, and nutritious food for all. We demonstrate how to grow food in harmony with nature by promoting biodiversity in our wildlife and soil ecosystems.

Additionally, we provide grants and support training for farmers, growers, and gardeners. Applications are welcome

You can support the Vegan Organic Network by becoming a member and receive our magazine Growing Green International twice a year. Membership from £15 a year. Donations welcome!
